THURSDAY, FEB. 23, 1865.

ANNOUNCEMENT.

FOR REPRESENTATIVE.

We are authorized to announce that E. D. of Monroe, a candidate for Congress as Representative from Bath and Rowan counties, subject to the action of the Democratic party.

It is truly succeeded in clipping the claws of the Standard Oil Co., will earn the nation's gratitude.

Your Uncle Samuel is a husky 'old chap, but when he bucks against the Standard Oil Co., he encounters the most difficult proposition he ever tackled.

General Gorchakov, minister to the Czar, was bidden to pieces by a bomb thrown by a revolutionist at Moscow. He was regarded as the most tyrant among Russian officials.

The University of Pennsylvania has granted the degree of doctor of law to Emperor William of Germany. Now if the law gets sick Doctor William can physic them to a finish.

And again the Hurley Tobacco Company, which the public had concluded that it was a goon. Nearly everybody wishes it success, but their faith is mighty weak at this stage of the game.

The Standard Oil Co. is to be combat in Kansas by a State oil refinery and laws forbidding the underselling of the State oil business. This measure is a sure bet, of course, but the Standard Oil Co. is responsible for it.

It is all up with J. Edward Adie's ambition to be a U. S. Senator from Delaware if it is true that his bar is empty at last. Adie's last will and testament is as helpless as a sot in the ultimate fire-work. Dupont, the powder-maker, may be elected.

The Standard Oil Co., the most ruthless monopoly in the United States, is under fire from the Federal authorities, besides Kansas and Texas state authorities. They are taking action against it. It has lived by the sword, figuratively speaking, and if it did not do so, then those who are so deeply interested in it are powerfully interested in it. Its power is gigantic and it uses it like a giant.

The House of Representatives unanimously adopted a resolution requesting President Roosevelt to investigate the petroleum monopoly of the country. The President, by directing James A. Garfield, Commissioner of Corporations, to do the work, has caused the Senate and Labor to begin the work immediately. Of course that the Standard Oil Co.'s methods will be under official inquiry. That is only a start. The time we are looking over the tracks in a way that is becoming unbearable.

On the 1st of January of this year the question of the Fayette Circuit Court's jurisdiction in the Hargis case by the Court of Appeals was decided in favor of the Circuit Court. Saturday, Feb. 5. The Circuit Court of Kentucky convened Monday. It is feared by the people that the Hargis party will have their hands tied. They will be cleared in the Circuit Court and then forestall the action of the Court of Appeals, claiming that they can be twice placed in jeopardy for the same offense.

CORRESPONDENCE.

Okla.

Mrs. James Crain is improving in health.
